Tools & Platforms: Docker, Git, SAP Data Intelligence, Google Colab
Core Competencies: Data Science, Computer Vision, Backend Development, ML Deployment

Experience

Full Stack Python Developer - AICTE | Onsite - Visakhapatnam, AP   May 2025 - Ongoing
- Thought basics and solidified foundations of Python, HTML and CSS along with bootstrap, JQuery and Django.
- Assigned to build a Python backend based full stack application - encrypt-bytes

AI Developer Intern - Viswam.ai (Meta & IIIT-H supported) | Remote - Hyderabad, TG   May 2025- June 2025
- Gaining exposure to data engineering workflows and indigenous LLM development.
- Independently contributed 3 document for their open-source LLM training, despite lack of team assignment or structured communication.

Education

Dr Lankapalli Bullayya College of Engineering – Visakhapatnam, AP   2022 – 2026
B Tech in Computer Science Engineering | 8.18/10

ST Aloysius PU College – Mangalore, KA   2020 – 2022
Science - Physics, Chemistry, Maths and Statistics (PCMS) | 64.67%

Projects

Encrypt-bytes NextJS, FastAPI, SQLite, Bun.js   github.com/hash-text
- An educational full stack web application which quickly encrypt and decrypt any content using different cryptographic algorithms and cipher modes along with explanations.

Url-shortner Spring boot, Flask, MySQL, Docker   github.com/url-shortner
- A responsive URL shortener built using Spring Boot and Flask microservice backend with persistent MySQL database that uses UUID and Base62 conversion reducing URL length upto 80% ensuring non collision.

ATS Score Flask, Ollama, PyPDF2, python-docx, HTML/CSS   github.com/ats-Score
- Mimimal UI and secure (no API endpoints) offline backend web application serving Ollama model tuned gemma3n:e2b Ollama model (via a Modelfile).

Co-curricular

NASA Space Apps Challenge - Global Space Challenge
- Developed NextJS website with FastAPI backend which uses joblib dumped ML models which take in planetary input and classify whether it is a planet, candidate or not confirmed. github.com/nasa

HackAP Hackathon - Hackathons conducted by Andhra University's A-Hub
- Vue based Web app to search LinkedIn profiles with 10+ years of experience in a domain. github.com/vue
- Developed an Android app to detect outsiders/trespassers entering residential zone. github.com/kotlin

Forage - Virtual Job Simulations
- Walmart Advanced Software Engineering Virtual Experience Program
